| 9 | people that go with them, |
| 10 | but we will come to order. |
| 11 | Good morning. The |
| 12 | meeting will come to order. |
| 13 | I note the presence of a |
| 14 | quorum, and our first order |
| 15 | of business is the minutes |
| 16 | of the meeting of May 10th, |
| 17 | which is in your folder, in |

| 19 | summary minutes. |
| 20 | There was discussion at |
| 21 | the last meeting of |
| 22 | instituting the process of |
| 23 | having verbatim transcripts, |
| 24 | which we have done. This |

| 10 | It would be my intention |
| 11 | to continue to do a summary |
| 12 | from the transcripts, and |
| 13 | the transcripts will be |
| 14 | available in the Board |
| 15 | offices, and I think that is |
| 16 | consistent with what we |

| 16 | binder, and certainly it |
| 17 | should be part of your |
| 18 | package of orientation and |
| 19 | otherwi se. |
| 20 | In getting started |
| 21 | today, the first order of |
| 22 | business there for you is a |
| 23 | copy of a resolution that |
| 24 | dates back to 1982, which is |
| 25 | the last time the Board |
| | |
| | |
| | |
| | |

8

| 1 | |
|----|----------------------------------|
| 2 | established processes and |
| 3 | procedures for expenditures |
| 4 | by the Board, and the |
| 5 | resolution that existed as |
| 6 | of 1982 gave substantially |
| 7 | all of the expenditure |
| 8 | authority to the executive |
| 9 | di rector. |
| 10 | We are now in |
| 11 | transition, and we will be |
| 12 | talking later about our |
| 13 | process for permanent |
| 14 | leadership, but in the mean |
| 15 | time, there is a resolution |
| 16 | to create a process for |
| 17 | expendi ture authori ty wi thi n |
| | Page 7 |

LI RPBVerbati mMi nutesJune20-2006. txt 18 the Board and with our 19 interim executive director. 20 So, in short, what it 21 does is gives the executive 22 director, the acting 23 executive director, the 24 authority on his own 25 signature for expenditures

| 1 | |
|----|------------------------------|
| 2 | up to \$1,000, and a |
| 3 | requirement that at each |
| 4 | periodic meeting of the |
| 5 | Board a report be made of |
| 6 | all the expenditures |
| 7 | approved during that period |
| 8 | of time. This is really to |
| 9 | allow Seth and the staff to |
| 10 | function on a daily basis |
| 11 | and to keep us posted on the |
| 12 | small stuff. |
| 13 | For expenditures over |
| 14 | \$1,000 during this interim |
| 15 | period, the resolution calls |
| 16 | for us to make those |
| 17 | decisions as a Board. If we |
| 18 | get to a situation where |
| 19 | there is a timing problem, |
| 20 | we will deal with that, but |
| | Page 8 |

| 21 | LIRPBVerbatimMinutesJune20-2006.txt in the mean time this would |
|----|--|
| | |
| 22 | put in place, this |

| 24 | us through until we put in |
| 25 | place a more permanent |
| | |
| | |
| | 10 |
| 1 | |
| 2 | long-term plan. |
| 3 | So, I would ask you to |
| 4 | react to that and invite a |
| 5 | motion on that resolution. |
| 6 | MS. GROSS: So moved. |
| 7 | MR. LAROCCA: El ai ne. |
| 8 | Second. |
| 9 | MS. SANDERS: Second. |
| 10 | MR. LAROCCA: Second, |
| 11 | Theresa. |
| 12 | Is there any discussion? |
| 13 | MR. LARGE: Seth, is |
| 14 | this enough for you? |
| 15 | MR. FORMAN: It's enough |
| 16 | to keep us in bagels for a |
| 17 | couple of years. |
| 18 | MR. LAROCCA: Bagels and |
| 19 | coffee is the most important |
| 20 | thing. Clearly, over time, |
| 21 | there should be a better |
| 22 | division on the number. My |
| 23 | apol ogi es. A better |
| | Page 9 |

LI RPBVerbati mMi nutesJune20-2006. txt division on the number, and we will work towards that as

| 1 | |
|----|------------------------------|
| 2 | we deal with our other |
| 3 | transition amendments. |
| 4 | MR. CAMERON: We are |
| 5 | authorizing up to \$1,000 by |
| 6 | the executive director. We |
| 7 | don't know right now, I |
| 8 | think, where our budget |
| 9 | stands. While it sounds |
| 10 | innocuous, we don't |
| 11 | necessarily know where the |
| 12 | budget is, that there is up |
| 13 | to \$1,000, but I think we |
| 14 | know, but we are aware that |
| 15 | Suffolk County held back its |
| 16 | money, and I think Nassau |
| 17 | still has it in abeyance. |
| 18 | We should have an idea that |
| 19 | we have the money to pay |
| 20 | them. |
| 21 | MR. LAROCCA: We are |
| 22 | solvent at the moment, and |
| 23 | we will have a further |

| 2 | independent item, the |
|----|------------------------------|
| 3 | resolution of this Board, |
| 4 | and I think it was October |
| 5 | or November of 2005. This |
| 6 | was the resolution that was |
| 7 | the most recent expression |
| 8 | of the charge under which |
| 9 | the Board is operating. |
| 10 | The resolution followed |
| 11 | virtually verbatim the |
| 12 | resolution that passed in |
| 13 | the Suffolk legislature and |
| 14 | was introduced in the Nassau |
| 15 | legislature, and when there |
| 16 | was a disparity between the |
| 17 | action in the two counties, |
| 18 | the Board resolved to adopt |
| 19 | the resolution as its own |
| 20 | guidance. That is now in |
| 21 | place, and it sets forth the |
| 22 | number of current tasks |
| 23 | which we are obliged to be |
| 24 | attentive to, and it might |
| 25 | just be worth taking a |

| 2 | moment to go to the |
|---|--------------------------------|
| 3 | resolution and make a very |
| 1 | quick review of it. Page 12 |

LI RPBVerbati mMi nutesJune20-2006. txt

| 5 | It established several |
|----|----------------------------|
| 6 | matters. There is a lot of |
| 7 | findings up at the |
| 8 | beginning, and it recites |
| 9 | some history references to |
| 10 | the Municipal Law and so |
| 11 | forth. |
| 12 | It established the size |
| 13 | of the council, the powers |
| 14 | of the at the time it was |
| 15 | using the word council in |
| 16 | substitution for the word |
| 17 | Board, but the fact that |
| 18 | this was never dealt with |
| 19 | uniformly in both counties |
| 20 | legislatively, we continue |
| 21 | to use the terminology |
| 22 | Board, but it's the same |
| 23 | reference throughout the |
| 24 | document. |
| 25 | This is resolution one |

| 1 | |

| 2 | of 2005, and also in your |
| 3 | package is the resolution as |
| 4 | it passed the Suffolk County |
| 5 | legislature and was |
| 6 | introduced in Nassau. Very |
| 7 | quickly, it calls for the Page 13 |

LI RPBVerbati mMi nutesJune20-2006. txt

| 8 | creation of a business plan. |
|----|------------------------------|
| 9 | It talks about our process |
| 10 | for keeping records of |
| 11 | resolutions and findings, an |
| 12 | obligation to, as I sort |
| 13 | through it, to bring our |
| 14 | bylaws perhaps further up to |
| 15 | date. The bylaws we have |
| 16 | are the propinquity. |
| 17 | It talks about our |
| 18 | necessity of our meeting |
| 19 | bimonthly. We are actually |
| 20 | also resolved to meet at |
| 21 | least that frequently, if |
| 22 | not sooner. There is |
| 23 | processes in here for funds. |
| 24 | There is reference to the |
| 25 | Code of Ethics process, |

| 1 | |
|----|-----------------------------|
| 2 | which I mentioned earlier. |
| 3 | There are attendance |
| 4 | requirements that apply to |
| 5 | us as members of the Board, |
| 6 | and the process for dealing |
| 7 | with that. The |
| 8 | establishment of the titles |
| 9 | of executive director and |
| 10 | deputy. There is Page 14 |

| Some limitations on the |
| part of staff, in terms of |
| outside activity, a |
| necessity to submit an |
| annual report to our |
| respective counties, and |
| there is then talk about a |
| directive about public |
| hearing process. |
| Part of what we do at |
| these meetings speaks to |
| that, but I think the intent |
| here was larger, and we will |
| |
| |
| 17 |
| |
| talk about that as we talk |
| about our work plan for the |
| year ahead. |
| There is further |
| reference to the completion |

| 15 | helping us with that. There |
| 16 | is some resolution |
| 17 | concerning the focus of the |
| 18 | planning activities. Most |
| 19 | of the usual suspects are |
| 20 | there; transportation, |
| 21 | housing, environmental |
| 22 | protection and down the |
| 23 | list. |
| 24 | There is also then a |
| 25 | larger clause that spells |

| 1 | |
|----|----------------------------------|
| 2 | out what other things we can |
| 3 | and should be doing. So, |
| 4 | until we adjust, or in any |

| 7 | as your Chair, I am viewing |
| 8 | as our current direction and |

| 21 | MR. CAMERON: Initial |
| 22 | comment on I think one of |
| 23 | the initial salient items is |
| 24 | the development of a |

going to propose a budget

| 21 | for both counties. I think |
|----|-----------------------------------|
| 22 | the time is getting tight. |
| 23 | l would like to hear |
| 24 | from Suffolk and Nassau for |
| 25 | their fiscal year. Maybe |
| | |
| | |
| | 20 |
| 1 | |
| 2 | Kevin and Patty can comment |
| 3 | on that. |
| 4 | MR. LAW: Suffolk, the |
| 5 | sooner the better. |
| 6 | Departments meet with the |
| 7 | office as we speak. Call |
| 8 | letter went out last month, |
| 9 | and all week long this week |
| 10 | they come in to discuss the |
| 11 | proposed budget. The County |
| 12 | Executive doesn't have to |
| 13 | submit it to the legislature |
| 14 | until after Labor Day. If |
| 15 | we could get something |
| 16 | perhaps by the end of July, |
| 17 | you know, that will still |
| 18 | give us the month of August |
| 19 | to work on it for you. So, |
| 20 | I think that should be good. |
| 21 | And in terms of that |
| 22 | four-month process, it Page 18 |

hasn't been complied with.

So, to the extent the Board

| 3 | fact that you could also |

| 19 | right before you came in. |
| 20 | This was modeled after the |
| 21 | resolution we had. It |
| 22 | includes about 98 percent of |
| 23 | what the legislature |
| 24 | approved, but this is the |
| 25 | bylaws from this Board. Page 19 |

| 1 | |
|----|------------------------------|
| 2 | MR. CAMERON: Patty? |
| 3 | MS. BOURNE: In Nassau |
| 4 | we are a little behind the |
| 5 | process. We need to budget |
| 6 | by mid-July, and |
| 7 | approximately the same time |
| 8 | it does go to our |
| 9 | legislature. I would say |
| 10 | that as soon as possible, if |
| 11 | we could have a place holder |
| 12 | figure, and then I will |
| 13 | certainly leverage our |
| 14 | budget focus, what we are |
| 15 | looking for, and the |
| 16 | documentation we would need |
| 17 | before the end of July, |
| 18 | early August. |
| 19 | MR. LAROCCA: Two |

| 5 | actually thinking if we |
| 6 | can't do it on the 20th of |
| 7 | June, we are meeting again |
| 8 | on the 11th of July, that we |
| 9 | might be able to be in |
| 10 | reasonably good shape by |
| | |
| 11 | making at least a |
| 12 | preliminary proposal, Patty, |
| 13 | perhaps more than a place |

| 21 | well, there is a lot of |
| 22 | overlap in both counties. |
| 23 | I would like to begin |
| 24 | then I apologize for my |
| 25 | back. Let me begin with the |

| 1 | |
|----|-----------------------------|
| 2 | basic structure of planning |
| 3 | Long Island is that all |
| 4 | authority in the first |
| 5 | lifetime comes from State |
| 6 | law. It is not something |
| 7 | that appears from federal |
| 8 | law. Towns, villages and |
| 9 | cities have inherent powers |
| 10 | to plan their communities |
| 11 | and so forth. There are |
| 12 | various parts of State law, |
| 13 | of town, village and city |
| 14 | General Municipal Law that |
| 15 | is specifically to delegate |
| 16 | authority to the Page 35 |

LI RPBVerbati mMi nutesJune20-2006. txt

| 17 | jurisdictions within both |
|----|------------------------------|
| 18 | counti es. |
| 19 | Keep in mind, as well, |
| 20 | that under New York State's |
| 21 | Constitution there is |
| 22 | municipal home rule powers. |
| 23 | So, unlike other parts of |
| 24 | the country where cities and |
| 25 | counties have authority, in |
| | |
| | |
| | 40 |
| | |
| 1 | |
| 2 | New York State a lot of this |
| 3 | power authority is in the |
| 4 | counti es. |
| 5 | In Suffolk County, we |
| 6 | have a new village county of |
| 7 | Sagaponic. We now have 32 |
| 8 | villages in Suffolk County |
| 9 | and 64 in Nassau County. We |
| 10 | have a total of 111 |
| 11 | municipal entities at town, |
| 12 | village and city level. We |
| 13 | have two counties and one of |
| 14 | you, one planning Board. |
| 15 | Talking a little |
| 16 | specifically now about the |
| 17 | powers that's given to towns |
| 18 | and villages and cities. |

Next slide. Page 36

We then

LI RPBVerbati mMi nutesJune20-2006. txt

| 20 | indicate, under New York |
|----|-----------------------------|
| 21 | State law deals with the |
| 22 | powers that localities can |
| 23 | do; comprehensive planning, |
| 24 | zoning, subdivision, site |
| 25 | plan, we view and map. I |
| | |

| 1 | |
|----|--|
| 2 | will walk through very |
| 3 | briefly what some of those |
| 4 | key topics include. |
| 5 | Comprehensive planning |
| 6 | is a power delegated to |
| 7 | communities here, again, |
| 8 | under Local enabling |
| 9 | statutes. It's an optional |
| 10 | exerci se. So, |
| 11 | municipalities may plan. |
| 12 | Once they do plan and the |
| 13 | plan could be defined as a |
| 14 | formal document. It could |
| 15 | be defined as a policy |
| 16 | and maps the communities, |
| 17 | once they do adopt one, the |
| 18 | locality must be in |
| 19 | accordance with that plan. |
| 20 | In other parts of the |
| 21 | county there is mandatory |
| 22 | planning that's required by Page 37 |

LI RPBVerbati mMi nutesJune20-2006. txt

the localities. It gives

the ability to plan for

immediate, long-term and

23

24

| | | 42 |
|----|--------------------------------------|----|
| 1 | | |
| 2 | development. | |
| 3 | Another power that we | |
| 4 | all hear a lot about is | |
| 5 | zoning. For the first | |
| 6 | 150 years of the history in | |
| 7 | United States it does not | |
| 8 | exist. It emanated from | |
| 9 | Germany to the United | |
| 10 | States, and many of the | |
| 11 | local zoning ordinances here | |
| 12 | in Nassau and Suffolk came | |
| 13 | about from the 1920s through | |
| 14 | to the 1940s, but it is one | |
| 15 | of the key powers that is in | |
| 16 | the cities in New York | |
| 17 | State, and it's the | |
| 18 | abilities of the | |
| 19 | municipality to create zones | |
| 20 | or districts, whereby uses | |
| 21 | are separated by land-use | |
| 22 | type. | |
| 23 | There are also | |
| 24 | regulations in terms of set | |
| 25 | backs, height structures. Page 38 | |

LI RPBVerbati mMi nutesJune20-2006. txt

| 1 | |
|----|------------------------------|
| 2 | It's a lot of what defines |
| 3 | the character of the |
| 4 | community. They are based |
| 5 | on doing a plan coming up, |
| 6 | what the community is |
| 7 | intended to be, what the |
| 8 | community can support, in |
| 9 | terms of traffic, waste |
| 10 | water management, and then |
| 11 | that is the way of |
| 12 | implementing the plan. It |
| 13 | hasn't been done that all, |
| 14 | but this certainly is in |
| 15 | more recent history, |
| 16 | planning is an integral part |
| 17 | of it. |
| 18 | The next is a |
| 19 | subdivision power, and Patty |
| 20 | will speak about that |
| 21 | further. |
| 22 | Differences between |
| 23 | Nassau and Suffolk. Very |
| 24 | simply, it's the process by |
| 25 | which a property is divided. |

LI RPBVerbati mMi nutesJune20-2006. txt

| 1 | |
|----|------------------------------|
| 2 | Going back to presubdivision |
| 3 | days, developers would file |
| 4 | maps in the County Clerk's |
| 5 | Office, and that's how they |
| 6 | divided property. Problems |
| 7 | were that file maps did not |
| 8 | match each other. You have |
| 9 | roads that don't connect. |
| 10 | A process that didn't |
| 11 | take into consideration is |
| 12 | environmental standing and |
| 13 | so forth. So, New York |
| 14 | State law specifically gives |
| 15 | the right to municipalities |
| 16 | to subdi vi de. |
| 17 | Here again, there are |
| 18 | distinctions in Nassau that |
| 19 | Patty will speak on. Let me |
| 20 | just point out that, |
| 21 | throughout this process, |
| 22 | there are three primary |
| 23 | entities within local |
| 24 | government that conduct |
| 25 | these supports. There is |
| | |

45

1

2 the Local Legislature body,
Page 40

| | LI RPBVerbati mMi nutesJune20-2006. txt |

| 3 | they operate these laws. |
| 4 | There they are the ones |
| 5 | that have the power to amend |
| 6 | zoning maps, to amend the |
| 7 | zoning text and so forth. |
| 8 | They have the authority |
| 9 | within the municipality. |
| 10 | The second will be a |
| 11 | pl anni ng board. Here agai n, |
| 12 | it's that they could create |
| 13 | pl anni ng boards. They are |
| 14 | often given roles of |
| 15 | subdivision review and site |
| 16 | plan review. |
| 17 | The planning board often |
| 18 | times is charged with the |
| 19 | role of administering or |
| 20 | developing a comprehensive |
| 21 | plan, but it must ultimately |
| 22 | be adopted by the |
| 23 | legislative bodies. |
| 24 | The next slide indicates |
| 25 | the role of localities. |

| 1 | |

It's a 20 process to solicit other 21 agents, such as a county 22 road approval and so forth. 23 The last item is just a 24 Here again, a plan summary. 25 is vested with localities,

| 6 | of the criteria. It's not |
| 7 | necessary, I don't think, in |
| 8 | this forum to get into the |
| 9 | details of that. A lot is |
| 10 | in General Municipal Law, |
| 11 | and in the case of Suffolk |
| 12 | County, General Municipal |
| 13 | Law actually spells out what |
| 14 | the purposes of a county |

| 23 | municipalities. Obviously, |
| 24 | there is benefits to that, |
| 25 | in terms of better |

| 3 | The county planning |

| 5 | its recommendation back to |
| 6 | localities with action, |
| 7 | whether approval, |
| 8 | modification of approval or |
| 9 | disapproval, or makes a |
| 10 | determination. Basically, |
| 11 | the commissioner said there |
| 12 | is no county impact. It's a |
| 13 | Local issue. |
| 14 | If they receive a |
| 15 | recommendation from the |
| 16 | county and wants to go |
| 17 | adverse, they need a super |

| 8 | actually they approved the |
| 9 | application. They overrode |

| 15 | held, even though Riverhead |
| 16 | supported. Litigation |
| 17 | ensued, but the decision was |

| 19 | There were other cases |
| 20 | where it's been overridden |

| 4 | They would take care of the |
| 5 | zoning issues and then the |
| 6 | subdivision issue. In |
| 7 | Nassau County, the zoning |
| 8 | issues are done, and I can't |
| 9 | stress enough, that the |
| 10 | zoning is done on the town, |

| 6 | do a better job of |
| 7 | subdivisions, because of the |
| 8 | continuity, to make sure |
| 9 | everyone is part of the |
| 10 | process. |
| 11 | In Nassau County, one of |
| 12 | the requirements that we |
| 13 | have under our county |
| 14 | charter is the master plan. |
| 15 | The master plan was |
| 16 | developed and submitted in |
| 17 | 1998, and every five years |
| 18 | we have been doing updates |
| 19 | on SEQRA. I assume Suffolk |
| 20 | is, and Tom could comment on |
| 21 | that, but we are the lead |
| 22 | agency for Nassau County for |
| 23 | SEQRA reviews on behalf of |
| 24 | the county legislature. But |
| 25 | SEQRA is very important, |

66

| 5 | something comes to |
| 6 | subdivision, and a lot of |
| 7 | times large projects, there |
| 8 | are SEQRA issues, because |
| 9 | something tips off a review. |
| 10 | We coordinate, again, with |
| 11 | the Lead agency, which |
| 12 | typically is the town. |
| 13 | There is another area |
| 14 | for coordination, as I |
| 15 | mentioned, in |
| 16 | transportation, and there is |
| 17 | a handout in your package |
| 18 | there. I just want to |
| 19 | mention a few things, |
| 20 | because I think in Nassau |

| 12 | other county executives and |
| 13 | the New York City Leadership |
| 14 | and the MTA and Port |
| 15 | Authority leadership, have |
| 16 | been meeting for two years |
| 17 | to work together to look at |
| 18 | regional growth areas. |
| 19 | One of the things we |
| 20 | heard from Nimtec and the |
| 21 | RPA is that that region is |
| 22 | growing. We expect an |

| 13 | sought to stay involved with |
| 14 | the Regional Planning Board |

| 9 | As Tom said, and as we |
| 10 | have heard about the history |
| 11 | of Long Island Regional |
| 12 | Planning Board, it wasn't |
| 13 | active for a number of |
| 14 | reasons. |
| 15 | When I took on this |

| 17 | meetings there was |
| 18 | discussion of the third |

| 8 | issues that it's going to |
|----|------------------------------|
| 9 | deal with, and set up an |
| 10 | outline of what needs to be |
| 11 | done. |
| 12 | What I also felt was |
| 13 | worthwhile, I should have |
| 14 | mentioned before, the |
| 15 | business plan, because the |
| 16 | decisions have to be made of |
| 17 | what the priorities are. |
| 18 | That's one of our |
| 19 | challenges. You can't do |
| 20 | everything at one time. |
| 21 | What do you start with? |
| 22 | What is the most important |
| 23 | thing to work on? And I |
| 24 | think the business plan will |
| 25 | help work with that. |

| 1 | |
|----|---|
| 2 | MR. LAROCCA: I can |
| 3 | think of two issues I am |
| 4 | aware of. Static, if you |
| 5 | will. One is in the draft |
| 6 | of the housing document for |
| 7 | the third plan, where there |
| 8 | seems to be a substantive |
| 9 | agreement between the policy |
| 10 | in the county and the policy Page 71 |

LI RPBVerbati mMi nutesJune20-2006. txt

| 11 | in the draft. I think |
|----|------------------------------|
| 12 | earlier I saw some exchanges |
| 13 | that said some of the same |
| 14 | things about some of the |
| 15 | energy elements where there |
| 16 | was some discomfort in some |
| 17 | quarters. |
| 18 | One of the things that |
| 19 | occurs to me, and the answer |
| 20 | to the question I am asking |
| 21 | you is that, in its policy |
| 22 | work, the Board can |
| 23 | articulate policy in a way |
| 24 | that is either harmonious or |
| 25 | not. And that doesn't mean |

| 1 | |
|----|---|
| 2 | everything that the Board |
| 3 | might articulate has to make |
| 4 | everybody comfortable. On |
| 5 | the other hand, it seems to |
| 6 | me where there are important |
| 7 | policy disagreements being |
| 8 | stressed regionally, and in |
| 9 | the two parent counties, |
| 10 | that's something to be dealt |
| 11 | wi th. |
| 12 | MR. TONNA: Can I just |

| 8 | Are there any powers we |
| 9 | don't have that you would |
| 10 | like us to have? |
| 11 | MS. BOURNE: Tom and I |
| 12 | have known each other, |
| 13 | worked with each other, |
| 14 | 25 years, and the value, as |
| 15 | he mentioned before, in |
| 16 | planning, of being able to Page 73 |

| 18 | is extremely valuable. The |
| 19 | reason this Board is |
| 20 | different, first of all, |
| 21 | there is no directory yet, |
| 22 | but even without, because we |

2 thing is that we are clear 3 about the future and the priorities that this Board decides on and we work 5 together. 6 7 The other thing that I 8 see, as I mentioned before, 9 there are limited resources 10 and things to do, and the 11 challenge for Long Island is 12 that the resources in Nassau 13 and Suffolk, as combined 14 with the Long Island 15 Regional Planning Board, are 16 coordinated so that we 17 respectfully decide what

| 21 | There might be a |
|----|------------------------------------|
| 22 | regional approach that the |

| 25 | certainly, in terms of the |
|----|--------------------------------------|
| | 84 |
| 1 | |
| 2 | local zoning, that is a |
| 3 | fundamental issue, and I |
| 4 | think the town's |
| 5 | perspective, what we try to |
| 6 | do is recognize that |
| 7 | historically there has been |
| 8 | a fundamental mismatch, in |
| 9 | terms of zoning. |
| 10 | Twenty years ago we were |
| 11 | faced with a situation that |
| 12 | there was much too much |
| 13 | zoning for single family |
| 14 | housing and shopping |
| 15 | centers, not enough |
| 16 | diversified housing and not |
| 17 | enough industrial base, and |
| 18 | the zoning issue is key. We |
| 19 | literally will go down, have |
| 20 | lunch talking about one |
| 21 | application and saying how |
| 22 | should this work, and we |
| 23 | don't always agree. |
| 24 | I think the perspective |
| 25 | we get from the County is Page 76 |

LI RPBVerbati mMi nutesJune20-2006. txt

| 1 | |
|----|------------------------------|
| 2 | the issue that we deal with |
| 3 | sometimes on the town with |
| 4 | the community. You are |
| 5 | worried about one site |
| 6 | there, but there is a bigger |
| 7 | picture, and that's the |
| 8 | issue we are dealing with |
| 9 | here. And we talk in Islip, |
| 10 | six acres of vacant land. |
| 11 | It is important to know |
| 12 | regionally there is a lot |
| 13 | more. |
| 14 | The most fundamental |
| 15 | issue is correcting that |
| 16 | zoning mismatch to a number |
| 17 | of very positive situations |
| 18 | that you can take away the |
| 19 | retail development and there |
| 20 | is a market to put housing. |
| 21 | You are now in court sued |
| 22 | rather infrequently. |
| 23 | You could provide the |
| 24 | diversified housing and |
| 25 | affordable housing, because |

LI RPBVerbati mMi nutesJune20-2006. txt

| 1 | |
|----|------------------------------|
| 2 | you mitigate it. Some of |
| 3 | the pressures the towns are |
| 4 | facing now is tremendous |
| 5 | pressure on the case of |
| 6 | everyone wants to build |
| 7 | di versi fi ed housi ng. |
| 8 | Everything we find is |
| 9 | helpful. Because there is a |
| 10 | very attractive shopping |
| 11 | center on the east side of |
| 12 | Islip, the town would like |
| 13 | to this is 120 acres of |
| 14 | prime sewer land. We have |
| 15 | less than 2 percent left for |
| 16 | industry. It is important |
| 17 | that we keep that. When we |
| 18 | go with the Health |
| 19 | Department and sewer agency |
| 20 | to try diversified agencies |
| 21 | in downtown. With Tom, we |
| 22 | work very, very closely with |

| 3 | support. When the person |
| 4 | says why didn't I get 30 |
| 5 | acres here, it's a different |
| 6 | situation based on a plan. |
| 7 | What I found is; one, |
| 8 | the broader perspective; and |
| 9 | two, a certain kind of bond. |
| 10 | More than once we talked |
| 11 | about plans coming up. It's |
| 12 | almost like watch your back |
| 13 | situation. What is the |
| 14 | consequence of the town |
| 15 | making this decision? |
| 16 | I think, as in most |
| 17 | towns, we are largely built |
| 18 | out. Less than |
| 19 | eight percent of vacant |
| 20 | land. Certainly, when we |
| 21 | look at the kind of work we |
| 22 | try to do in blighted areas, |

| 12 | give our town Board |
| 13 | members, every time we have |
| 14 | a zoning meeting, that say |
| 15 | what does the county think |
| 16 | about this? |
| 17 | That's one of the |
| 18 | questions you should |
| 19 | certainly know, that in the |
| 20 | trenches, the counsel goes |
| 21 | right down. I think that's |
| 22 | the most important. |
| 23 | The other thing I would |

| 6 | that there is a relationship |
| 7 | between those particular |
| 8 | factors. |
| 9 | What has happened is, |
| 10 | what we see on the local |
| 11 | level is that the |

| 15 | Once it's adopted, all of |

| 17 | fall within the jurisdiction |
| 18 | of the Long Island Regional |

| 4 | It would seem that this |

| 7 | Local needs. What do you |
| 8 | need expedited? What region |

| 13 | here or something like that, |
| 14 | that this Board should serve |
| 15 | as a catalyst to facilitate |

| 18 | MR. DeRUBEIS: My |
| 19 | feeling is, if you could |

| 4 | MR. DeRUBEIS: What |
| 5 | happens is that everybody |
| 6 | has their own functions. |
| 7 | The county has to be |
| 8 | concerned about its roles; |
| 9 | it's roads, it's sewage. |
| 10 | The state has to be |
| 11 | concerned about its items, |
| 12 | and we are trying to all |

| 14 | I was just yesterday |

| 6 | We should be able to put |

That we should be 10 able to, as a Board, define 11 broad outlines and, say, Smithtown is having a 12 problem, we should be able 13 14 to assist you in being able 15 to work through that, or 16 whatever else it is with the 17 other agencies. | 20 | money we got will last, |
| 21 | given our current run rate |

| 10 | One is to find out what |
| 11 | is going on, and whether we |
| 12 | have enough money in the |

| 6 | MR. LAW: What Jim said, |
| 7 | effective January 1st '07. |
| 8 | In terms of monies, they are |
| 9 | currently being budgeted, |
| 10 | '06, that we tied up. You |
| 11 | know, I have been committed |
| 12 | to working with Janet to get |
| 13 | you those funds ASAP. |
| 14 | MR. LARGE: Within a |
| 15 | month or so? |
| 16 | MR. LAW: This summer. |
| 17 | MR. LARGE: What is |
| 18 | your |
| 19 | MS. BOURNE: I had a |
| 20 | previous conversation with |
| 21 | Liz Botman. She's Looking |
| 22 | in the controller's office. |
| 23 | I don't know if there are |
| 24 | restraints in the funds. It |
| 25 | is \$100,000. It's \$60,000 |
| | |

| 1 | |
|---|--|
| 2 | there. It's more how you |
| 3 | need to use them this year. |
| 4 | The other issue I know |
| 5 | is always difficult for the |
| 6 | prior group, including Seth, |
| 7 | that was we paid after the Page 146 |

LI RPBVerbati mMi nutesJune20-2006. txt

| 8 | fact and made a big deal |
|----|------------------------------|
| 9 | about it. We didn't pay |
| 10 | until the following quarter. |
| 11 | Depending on how it all sets |
| 12 | up, as Ken said, if as you |
| 13 | think about it, your |
| 14 | employees are not employed |
| 15 | through either county or |
| 16 | both counties. |
| 17 | The other, if you want |
| 18 | to incorporate it, would be |
| 19 | to use an outside non-profit |
| 20 | as your fiscal agent and pay |
| 21 | them a fee, and that would |
| 22 | have to be budgeted for, |
| 23 | too. I don't know legally |
| 24 | if there is a problem, |
| 25 | because of the way this is |
| | |

| 1 | |
|----|---|
| 2 | set up, but it's something |
| 3 | to consider. |
| 4 | The other remark I |
| 5 | wanted to make is I don't |
| 6 | think that the amount is |
| 7 | different, the total for |
| 8 | '07, in terms of a budget, |
| 9 | than what we had. Amount, |
| 10 | in terms of getting through Page 147 |

LI RPBVerbati mMi nutesJune20-2006. txt

| 11 | the process, because it has |
|----|-----------------------------|
| 12 | to go through the county |
| 13 | executive process and |
| 14 | legislature process in both |
| 15 | counties. I think you want |
| 16 | to balance between being |
| 17 | general, because Jim Large |
| 18 | said a year from now you |
| 19 | can't know now what you are |
| 20 | going to be doing. Next |
| 21 | July you are all thinking |
| 22 | about. That may be |
| 23 | different than some of the |
| 24 | things that were in here. |
| 25 | When he proposed it he |

| 1 | |
|----|-------------------------------------|
| 2 | had in mind the intent of |
| 3 | doing new things, but also |
| 4 | continuing and finishing up |
| 5 | the third regional plan. I |
| 6 | don't recommend it being a |
| 7 | priority. Some of those |
| 8 | things are more outreach, |
| 9 | engaging with groups, forum |
| 10 | that you may want to keep a |
| 11 | general, but argue outreach |
| 12 | skills and other support |
| 13 | kind of skills. As Seth Page 148 |

LI RPBVerbati mMi nutesJune20-2006. txt

| 14 | said, just putting these |
|----|-------------------------------------|
| 15 | meetings together is work. |
| 16 | Input of information, that |
| 17 | takes a lot of effort. |
| 18 | MR. TONNA: The other |
| 19 | issue that I look at, just |
| 20 | one thing with the salaries. |
| 21 | County Executive of Nassau |
| 22 | doesn't make \$145,000. Just |
| 23 | my experience in the |
| 24 | legislature, there is great |
| 25 | sensitivity to matching |
| | |
| | 445 |
| | 165 |
| 1 | |
| 2 | sal ari es. |
| 3 | MR. CAMERON: I think |
| 4 | there is a number of |
| 5 | employees making more. |
| 6 | MR. TONNA: I just say |
| 7 | we should be sensitive to |
| 8 | that. |
| 9 | MR. LAW: I seen |
| 10 | MR. TONNA: All I am |
| 11 | saying is that I think there |
| 12 | needs to be some tying. I |
| 13 | think these are proper |
| 14 | salary amounts, but we need |
| 15 | to be sensitive to that. |
| 16 | When you go through the Page 149 |

LI RPBVerbati mMi nutesJune20-2006. txt

| 17 | legislature process, how |
|----|----------------------------|
| 18 | could they be making more |
| 19 | than me. You can be |
| 20 | surprised how it could get |
| 21 | bogged down to have it for |
| 22 | the Health Department, for |
| 23 | the head of the Health |
| 24 | Department or District |
| 25 | Attorney or whatever else. |

| 1 | |
|----|---|
| 2 | So, we should be able to |
| 3 | have that as part of it. |
| 4 | MS. SANDERS: The budget |
| 5 | is identifying expenditures |
| 6 | out of the two counties. |
| 7 | Have we talked about any |
| 8 | other sources of income to |
| 9 | balance their budget? |
| 10 | MR. LAROCCA: We haven't |
| 11 | obviously talked about it |
| 12 | yet. Just a little |
| 13 | homework, you found staff of |
| 14 | 34 to 35 people, but that |
| 15 | was a reflection of grant |
| 16 | work, outside funding and so |
| 17 | forth. It's very hard to |
| 18 | anticipate now a year from |
| 19 | now, particularly given the Page 150 |

transition we are in, and

20

21

22

| 21 | that we haven't really |
|----|------------------------------|
| 22 | adopted our work, in terms |
| 23 | of identifying sources. |
| 24 | This was meant to |
| 25 | reflect my view, at least |
| | |
| | |
| | 167 |
| 1 | |
| 2 | that we are a creature of |
| 3 | both counties, that we are |
| 4 | operating as a county agent |
| 5 | in both cases, and our |
| 6 | request to the county should |
| 7 | be for the monies it takes |
| 8 | for us to operate. If we |
| 9 | take on other tasks, if we |
| 10 | are successful in the |
| 11 | pursuit of grants outside |
| 12 | and so forth, in effect, our |
| 13 | budget will grow, but this |
| 14 | will speak to the question |
| 15 | of what we will be seeking |
| 16 | appropriations for from our |
| 17 | two governmental parents. |
| 18 | Hopefully, as this comes |
| 19 | back to life, given its |
| 20 | history of being able to |

attract research money from

DOE and DOF, that should be

| 4 | MS. SANDERS: But what |

| 6 | MR. LAROCCA: This is |
| 7 | the county monies and in |

| 9 | support us. |
| 10 | MR. TONNA: But we need |
| 11 | that mouse trap. We need to |
| 12 | receive money, all that |
| 13 | stuff. |
| 14 | MR. LAW: We should work |
| 15 | it out with the Nassau |
| 16 | County, not County |
| 17 | Attorney's office. |
| 18 | MR. LAROCCA: I am going |
| 19 | to break it there, because |
| 20 | we are going to lose a |
| 21 | member. We need to have an |
| 22 | executive session. |
| 23 | l thank you all. If |

| 16 | MR. LAROCCA: We are |
| 17 | back in public session. |
| 18 | Is there anything else |
| 19 | for the good of the order? |
| 20 | MR. CAMERON: I have |
| 21 | something I would just like |
| 22 | to add. I mentioned |
| 23 | earlier, I just find that |
| 24 | two hours really confining. |
| 25 | I would prefer if we can |

| 6 | three-hour meeting. |
| 7 | MS. SANDERS: I support. |
| 8 | MR. LAROCCA: I am |
| 9 | agreeable. There was a mix. |
| 10 | Elaine said she was |
| 11 | supported. |
| 12 | MR. TONNA: If we make |
| 13 | it earlier, the next |
| 14 | meeting, the 11th, I'm |
| 15 | already booked. I would |
| 16 | have to leave. |
| 17 | MS. SANDERS: Are you |

| 19 | MR. LAROCCA: Is |

| 7 | MR. LAROCCA: For that |
| 8 | meeting I will talk with |
| 9 | Doug Henton (phonetic |
| 10 | spelling) and see if we |
| 11 | could work him into that |
| 12 | process. We will come back |

| 21 | MR. CAMERON: Also, I |
| 22 | would like to hear the rest |

| 24 | should dedicated meetings; |
| 25 | whether energy, |

| 1 | |

| 13 | MR. TONNA: That would |

| 15 | MR. LAROCCA: It's my |
| 16 | desire to get there. |
| 17 | In the interest of the |
